

Are Your Patients Suffering?

Poor communication factored into **1,744 patient deaths and over \$1.7 billion** in malpractice costs in the past 5 years.

Disparate networks, remote employees, rising mobile device usage and cybercrime make delivering care difficult and inefficient.

With the UCaaS market expected to reach **\$26.2 billion by 2027**, now is the time to invest in a unified communication platform.

5 Reasons Healthcare Facilities Need UCaaS

1. STRATEGIC ADVANTAGE

51% of healthcare consumers cited convenience as their most important factor in selecting providers.

2. IMPROVE PATIENT CARE

96% of patients report that poor customer service is their #1 complaint. UCaaS allows you to monitor critical cases, respond to crises, implement training or best practices whenever, wherever.

3. EASY INTEGRATION

Our UCaaS solutions are **easily integrated/designed to work** with your platforms and allow facilities to offer more telehealth opportunities and remote care support in the future.

4. HIPAA SECURITY

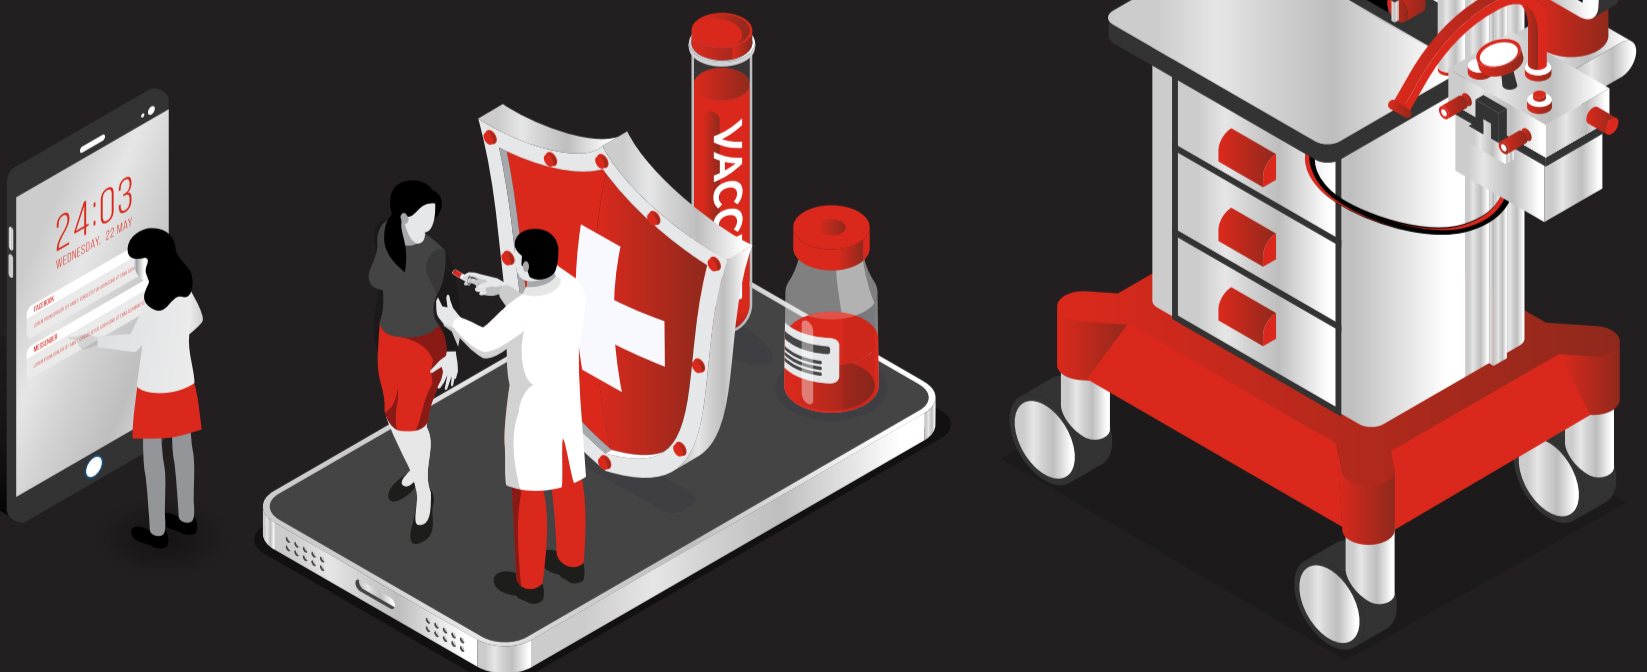

78 million healthcare records have been breached since 2009. UCaaS provides high-end cloud-based security to secure patient data and help IT meet stringent compliance requirements.

5. INCREASE PRODUCTIVITY

90% of providers say contact centers will play an integral role in driving exceptional patient experiences in the next 2 years.

Increase Patient Trust

60% of patients trust medical providers more who deploy digital technologies, 50 percent trust urgent care and public health clinics more.

Enjoy a pay as you grow model that allows easy expansion in numbers of users and functionalities.
